

S-AOPT Shine on

Brighter than a shooting star, Shine no matter where you are.

NINE Wavelength
Filters Optional

Utilize OPT And MSP Technology

Shine Brightly

who are they?

It's mother, it's daughter,

It's a father, it's a son,

...

They plays N kinds of roles,

Sometimes beautiful, gentle, generous and elegant,

Sometimes brave and determined to go forward,

They struggle in the dust,

It also shines in the galaxy.

Shine on.

With the S-APOT, The Skin Rejuvenated is Easy.

Acne

Epidermis pigmentation

Epidermis pigmentation,
Rosacea and flushing

Pigmentation,
Vascularisation and skin care.

Dermis larger vessels,
Skin care,
Pigmentation and vascularization

Larger vessels in the face,
General ipl skin care,
Pigmentation and vascularization

Oil control,
Fine lines,
Skin texture improvement

Hair removal

Deep anti-aging

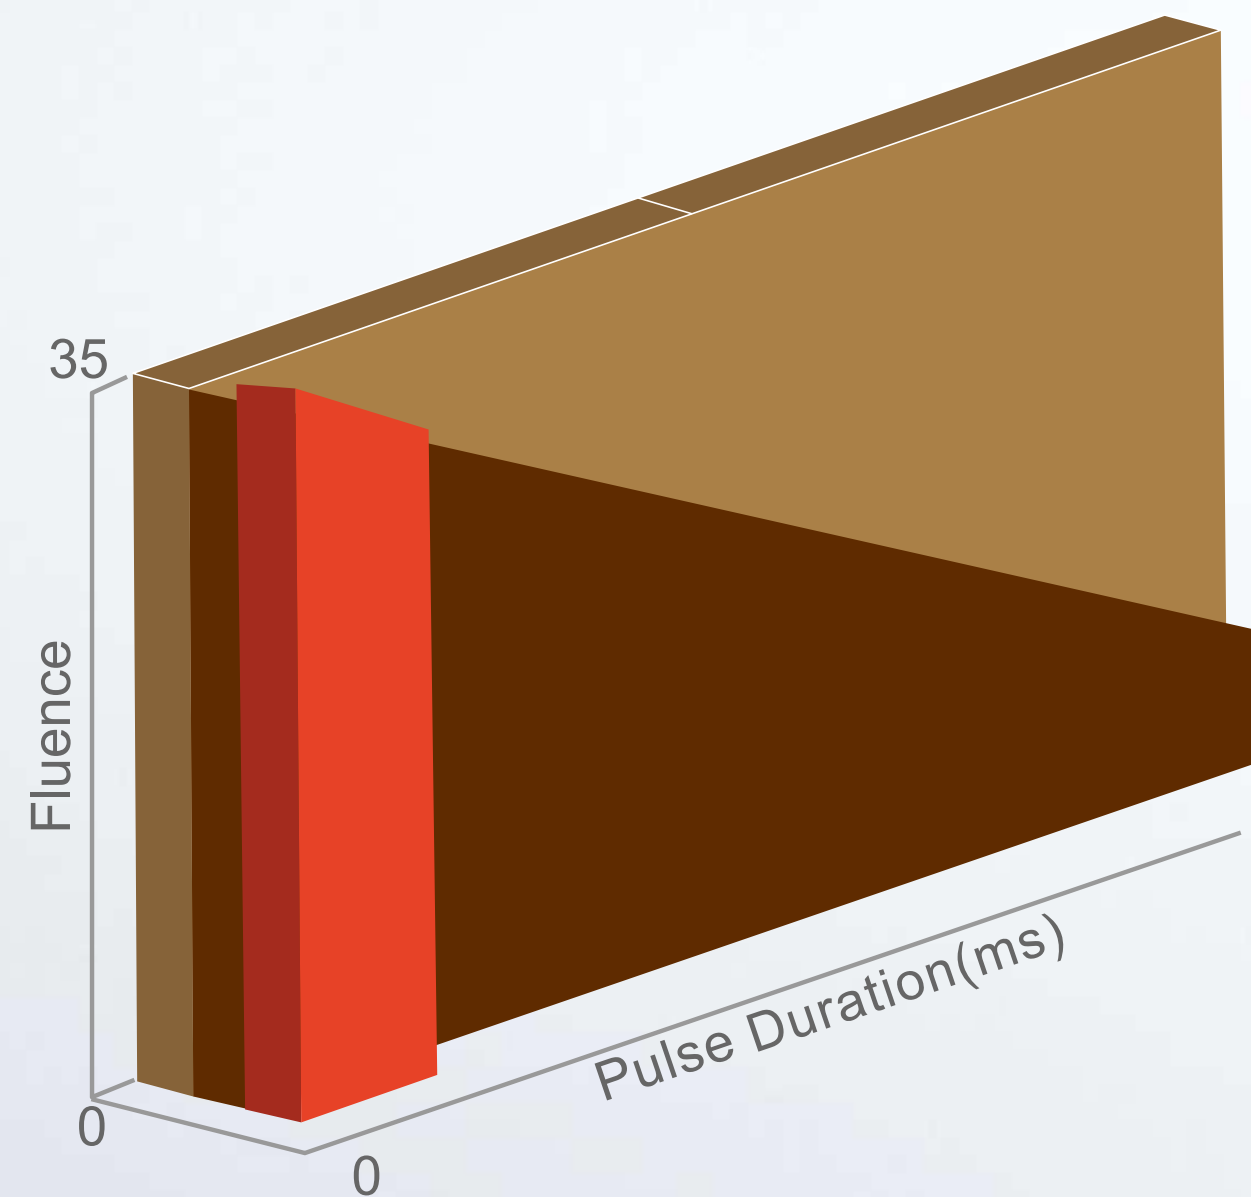

Principle

The longer the wavelength, the deeper the penetration

OPT and MSP Technology

OPT - Optimal Pulse Technology

IPL with OPT

-  S-AOPT IPL with OPT
-  High-powered IPL without OPT
-  Limited capabilities of lower-powered systems

The OPT advantages:

- High peak power, shorter pulses - optimal for IPL skin treatments using photorejuvenation and the treatment of benign pigmented lesions.
- Homogeneous power over long pulse durations.

MSP - Multiple-Sequential Pulsing

MSP Technology:

- Multiple-Sequential Pulsing allows for cooling the skin in between pulses, reducing the chance of skin damage during treatments.

Cooling Handle

-4-20°C Cooling ❄️

Spot Size Adaptors

Quick-Change Spot Size Adaptors

Quickly and easily change spot sizes with magnetic gold pieces that instantly adjust for comfortable treatment of both small and highly contoured areas.

Advantages

One versatile applicator to treat over 20 skin conditions and hair removal.

**Treats Acne, Rosacea,
Pigmented and Vascular
Lesions.
Also reduce age spots
through photorejuvenation.**

**Optimal Pulse Technology
(OPT) controls pulse shape
and length.**

**Multiple Sequential Pulsing
(MSP) enables a safer
procedure while cooling
between pulses.**

9 Filters, changeable in seconds.

**-4-20°C for patient
comfort through
continuous contact cooling.**
